About Avicenna Medical College

Avicenna Medical & Dental College is a purpose-built, fully equipped institution with experienced and excellence-driven faculty to train high-quality dental professionals in Pakistan.

Avicenna Medical & Dental College runs under the umbrella of Abdul Waheed Trust. Abdul Wahid Trust is a non-profit social welfare organization and registered under the Societies Act with the Registrar of Societies. The Trust is legalized through a Trust Deed that bears necessary rectifications. The Trust Deed is further supported by its Memorandum and Article of Association that authorizes the establishment and operation of the Medical College, the Dental College, the Nursing College, the Allied Health Sciences College, and other activities in the healthcare sector.

In 2009, Avicenna Medical & Dental College was recognized by the Pakistan Medical & Dental Council. With the advent of advanced tools and technology in every field of health science, medicine today has shot up to the greater end of the gamut with superior choice and promises in medical therapy in the very vicinity of the common man. AVMDC promises to be one such neighborhood.

Message from the Principal

As a Co-Founder and Co-Chairperson, I have been involved in planning, construction and accreditation of Avicenna Medical College by the Pakistan Medical and Dental Council (PM&DC) and its affiliation with the esteemed University of Health Sciences (UHS). It is a pleasure to see Avicenna Medical College develop, progress and achieve maximum academic excellence in a short period since its inception in 2009. The institution has lived up to its mission of training and producing medical graduates of international standards. Three batches have passed out as Doctors, who currently are serving in the country and abroad while several have opted for post-graduation and are on road to progress. We have achieved several milestones since 2009 including the recognition of our College for FCPS training by College of Physicians and Surgeons of Pakistan (CPSP), establishment of College of Nursing and Avicenna Dental College.

Principal

Prof. Dr. Gulfreen Waheed

MBBS, FCPS, MHPE, PhD Scholar - HPE

Avicenna Medical & Dental College

Message from the Chairman

The Avicenna Medical & Dental College is a project of Abdul Waheed Trust which is a Non-profitable, Non-governmental, Non-political & Social organization, working for the welfare of Humanity and based on Community empowerment. Avicenna Medical College has its own 530 bedded Avicenna teaching Hospital (Not for Profit hospital) within the College Campus & 120 bedded Aadil Hospital, at 15 minutes' distance. Separate comfortable hostels for boys & girls are provided on the campus.

Our students benefit from the state-of-the-art College Library with facilities of Internet & online Journals that remain open 15 hours a day, for our students & faculty members. I am particularly pleased with the hard work by the Faculty and Students in the achievement of historic 100% results for all the classes. It is a rare achievement and speaks of dedication of the Faculty and Staff. Our motto is Goodness prevails and we aim at producing Doctors' who are knowledgeable, competent in clinical skills and ethical values.

Avicenna Medical College & Hospital was founded to provide quality health care services to the deserving patients belonging to the rural areas near Avicenna Hospital as well as to provide quality medical education of international standard to our students. The Hospital provides all medical services and Lab diagnostics to the local population at minimal cost. So far by the grace of Allah Almighty the number of patients being treated and operated upon at our Hospital is increasing every day as there is no other public or charity hospital in the circumference of 20km. We have already established two Satellite Clinics in the periphery which are providing outdoor care while admission cases are brought to the Hospital in Hospital transport.

Following the success of our reputable Medical College and Hospital, we were able to successfully establish Avicenna Dental College which is recognized by the Pakistan medical & Dental Council & University of Health Sciences. To date, we have enrolled five batches in our dental college and we aim to achieve the same level of success for our dental students as our medical students.

Chairman

Abdul Waheed Sheikh

Avicenna Medical & Dental College

Vision & Mission

Avicenna Medical & Dental College

List of Abbreviations

Letter	Abbreviations	Subjects
A	A	Anatomy
	ABCDE	Airway, Breathing, Circulation, Disability, Exposure
	ABG	Arterial blood gas
	ACS	Acute Coronary Syndromes
	Ag	Aging
	AKI	Acute kidney injury
	ALT	Alanine transaminase
	AMI	Acute Myocardial Infarction
	AMP	Adenosine monophosphate
	ANA	Antinuclear Antibody
	ANCA	Anti-neutrophil Cytoplasmic Antibodies
	ANS	Autonomic Nervous System
	AO	Association of osteosynthesis
	APTT	Activated Partial Thromboplastin Clotting Time
	ARDS	Acute Respiratory Distress Syndrom
	ARVC	Arrhythmogenic Right ventricular Cardiomyopathy
	ASD	Atrial Septal Defect
	AST	Aspartate aminotransferase
	ATLS	Advanced Trauma Life Support
	Au	Autopsy
B	AUC	Area under the curve
	AV	Atrioventricular
	B	Biochemistry
	BhS	Behavioral Sciences
C	BHU	Basic Health Unit
	BSL	Biological Safety Level
	C	Civics
	C-FRC	Clinical-Foundation Rotation Clerkship
	C.burnetii	Clostridium burnetii
	C.neoformans	Clostridium neoformans
	C.pneumoniae	Clostridium pneumoniae
	C.psittaci	Clostridium psittaci
	C.trachomatis	Clostridium trachomatis
	CA	cancer
	CABG	coronary artery bypass grafting
	CAD	coronary artery disease
	CBC	Complete Blood Count
	CCR5	cysteine-cysteine chemokine receptor
	CD31	cluster of differentiation 31
	CD34	cluster of differentiation 34
	CD4	cluster of differentiation 4
	CF	cystic fibrosis
	CK	Creatine kinase
	CLED	cystine lactose electrolyte deficient
	CLL	chronic lymphocytic leukemia
	CM	Community Medicine

	CML	chronic myeloid leukemia
	CMV	cytomegalo virus
	CNS	Central Nervous System
	CO	Carbon monoxide
	CO2	Carbon dioxide
	CODIS	combined DNA index system
	COPD	Chronic obstructive pulmonary disease
	COVID-19	Corona Virus Disease 2019
	COX	Cyclooxygenase
	CPR	Cardiopulmonary Resuscitation
	CR	Clinical Rotation
	CRP	Clinical Rotation CSF C- Reactive Protein
	CSF	Cerebro Spinal Fluid
	CT	Computed tomography
	CV	Cardiovascular
	CVA	Cerebral vascular accident
	CVS	Cerebrovascular system
D	D.medinensis	Dracunculus Medinensis
	DALY	Disability-Adjusted Life Year
	DCIS	Ductal Carcinoma in situ
	DCM	Dilated Cardiomyopathy Dorsal Colu
	DCMLS	Dorsal column medial lemniscus system
	DLC	Differential Leukocyte Count
	DMARDs	Disease Modifying Anti Rheumatic Drugs
	DNA	Deoxyribonucleic Acid
	DOTS	Directly Observed Treatment Short course
	DTP	Diphtheria, Tetanus, Pertussis
	DVI	Disaster Victim Identification
	DVT	Deep Vein Thrombosis
E	E.coli	Escherichia coli
	ECF	Extracellular Fluid
	ECG	Electrocardiography
	ECP	Emergency contraceptive pills
	ED50	Median Effective Dose
	EEG	Electroencephalogram
	EIA	Enzyme Immunoassay

Introduction to the Study Guide

Welcome to the Avicenna Medical & Dental College Study Guide!

This guide serves as your essential resource for navigating the complexities of your medical education at Avicenna Medical & Dental College. It integrates comprehensive details on institutional framework, curriculum, assessment methods, policies, and resources, all meticulously aligned with UHS, PMDC and HEC guidelines.

Each subject-specific study guide is crafted through a collaborative effort between the Department of Medical Education and the respective subject departments, ensuring a harmonized and in-depth learning experience tailored to your academic and professional growth.

Objectives of the Study Guide

1. Institutional Understanding:

- Gain insight into the college's organizational structure, vision, mission, and graduation competencies as defined by PMDC, setting the foundation for your educational journey.

2. Effective Utilization:

- Master the use of this guide to enhance your learning, understanding the collaborative role of the Department of Medical Education and your subject departments, in line with PMDC standards.

3. Subject Insight:

- Obtain a comprehensive overview of your courses, including detailed subject outlines, objectives, and departmental structures, to streamline your academic planning.

4. Curriculum Framework:

- Explore the curriculum framework, academic calendar, and schedules for clinical and community rotations, adhering to the structured guidelines of UHS & PMDC.

5. Assessment Preparation:

- Familiarize yourself with the various assessment tools and methods, including internal exam and external exam criteria, and review sample papers to effectively prepare for professional exams.

6. Policies and Compliance:

- Understand the institutional code of conduct, attendance and assessment policies, and other regulations to ensure adherence to college standards and accrediting body requirements.

7. Learning Resources:

- Utilize the learning methodologies, infrastructure resources, and Learning Management System to maximize your educational experience and academic success.

This guide, meticulously developed in collaboration with your subject departments, is designed to support your academic journey and help you achieve excellence in accordance with the highest standards set by PMDC and HEC.

7-Star Doctor Competencies (PMDC)

According to national regulatory authority PMDC, a Pakistani medical/dental graduate who has attained the status of a 'seven-star doctor' is expected to demonstrate a variety of attributes within each competency. These qualities/ generic competencies are considered essential and must be exhibited by the individual professionally and personally.

- Skillful / Care Provider.
- Knowledgeable / Decision Maker.
- Community Health Promoter / Community Leader.
- Critical Thinker / Communicator
- Professional / Lifelong learner.
- Scholar / Researcher
- Leader/ Role Model / Manager

Introduction to Module-

Community Medicine & Family Health-II equips future healthcare professionals with the knowledge, skills, and attitudes necessary to implement preventive strategies, promote health, and reduce the burden of disease through a primary healthcare approach aimed at achieving universal health coverage. It enables students to understand how social, economic, and environmental factors influence health outcomes and prepares them to address health disparities effectively. The module also focuses on developing competencies to respond to public health challenges such as pandemics, natural disasters, and environmental hazards through community-based strategies. Additionally, it emphasizes the importance of providing family health services at

the community level.

TIME TABLE M-22		4th YEAR MBBS	SESSION 2025-2026						Week 2
DATE	DAY	8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-12.30	12.30-1:30	1.30-2.30	2.30-3.30
13-Apr-26	MON	Lecture Community Medicine Topic "Measures of dispersion. Facilitator: Prof Rana Akhtar <u>LECTURE HALL 4</u>	Lecture Pathology Topic Esophageal tumors. Facilitator: Dr. Nabila Akram <u>LECTURE HALL 4</u>	Field visit Community Medicine Topic HOSPITAL WASTE MANAGEMENT Facilitator DEMONSTRATORS					
14-Apr-26	TUE	Lecture ENT Topic Audiology & Acoustics Facilitator: Dr Behram <u>LECTURE HALL 4</u>	Lecture Family Medicine Topic Classify fever. Outline the common infectious and non-infectious causes of fever. Facilitator: Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Pathology Topic Pathogenesis and morphology of acute gastritis. Facilitator: Dr. Nabila Akram <u>LECTURE HALL 4</u>	BREAK	Lecture Community Medicine Topic Concepts of occupational health, occupational medicine, and occupational hygiene. Facilitator: Prof. Dr Muhammad Usman Sheikh <u>LECTURE HALL 4</u>	Lecture Medicine Topic Esophageal candidiasis Facilitator: Dr. Asim <u>LECTURE HALL 4</u>	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
15-Apr-26	WED	Lecture Pathology Topic Pathogenesis, morphology, and complication of peptic ulcer disease. Facilitator: Dr. Nabila Akram <u>LECTURE HALL 4</u>	Lecture Eye Topic Eyelid/Blepharitis. Facilitator: Prof Rafe <u>LECTURE HALL 4</u>	Lecture ENT Topic Assessment of Hearing facilitator Prof. Rizwan Bajwa <u>LECTURE HALL 4</u>		CLINICAL ROTATION / CLINICAL SKILLS		Pathology Practical (Batch B) Family Medicine Tutorial (Batch C) Research IT Lab work (Batch A)	
16-Apr-26	THU	Lecture Medicine Topic Esophageal cancer. Facilitator: Dr. Asim <u>LECTURE HALL 4</u>	Lecture Family Medicine Topic Investigations in the evaluation of fever. Facilitator: Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Community Medicine Topic Normal curve and its application. Facilitator: Prof Rana Akhtar <u>LECTURE HALL 4</u>		CLINICAL ROTATION / CLINICAL SKILLS		Pathology Practical (Batch C) Family Medicine Tutorial (Batch A) Research IT Lab work (Batch B)	
17-Apr-26	FRI	Lecture Eye Topic Eyelid/Syze Chalazion Facilitator: Prof Rafe <u>LECTURE HALL 4</u>	Lecture Surgery Topic Bariatric and metabolic surgery Facilitator: Prof. Hassan Khan <u>LECTURE HALL 4</u>	Lecture Pharmacology" Topic Antacids: Facilitator: Dr. Asma Saeed <u>LECTURE HALL 4</u>		CLINICAL ROTATION / CLINICAL SKILLS		JUMA BREAK	

AVICENNA MEDICAL & DENTAL COLLEGE BLOCK 10 MODULE 24									
TIME TABLE M-22		4th YEAR MBBS	SESSION 2025-2026						Week 3
DATE	DAY	8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
20-Apr-26	MON	Lecture Community Medicine Topic Statistical tests Facilitator: Prof Rana Akhtar <u>LECTURE HALL 4</u>	Lecture Pathology TOPIC Ischemic bowel disease Facilitator: Dr. Nabila Akram <u>LECTURE HALL 4</u>	Field visit Community Medicine Topic SCHOOL VISIT Facilitator DEMONSTRATORS					
21-Apr-26	TUE	8.00-9.00	9.00-10.00	10.00-11.00	BREAK	11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
		Lecture ENT Topic Hearing Loss Facilitator: Prof. Riwaz Bajwa <u>LECTURE HALL 4</u>	Lecture Family Medicine TOPIC Assessment of a sick child. Facilitator: Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Pathology Topic Gastric adenomas Facilitator: Dr. Nabila Akram <u>LECTURE HALL 4</u>		Lecture Community Medicine Topic Ergonomics Facilitator: Prof. Dr Muhammad Usman Sheikh <u>LECTURE HALL 4</u>	Lecture Medicine TOPIC Pathophysiology of vomiting Facilitator: Dr. Hamsira <u>LECTURE HALL 4</u>	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
22-Apr-26	WED	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Lecture Pathology Topic Gastric tumors. Facilitator Dr. Nabila Akram <u>LECTURE HALL 4</u>	Lecture Eye Topic Eyelid Entropion/Ectropion/ Trichiasis/Distichiasis Facilitator Prof Rafe <u>LECTURE HALL 4</u>	Lecture ENT Topic Assessment & Disorders of vestibular systems Facilitator Prof. Sami Mumtaz <u>LECTURE HALL 4</u>		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		Pathology Practical (Batch B) Family Medicine Tutorial (Batch C) Research IT Lab work (Batch A)	
23-Apr-26	THU	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Garad Test Community Medicine Topic 10 STATS (syllabus covers) C. MED FACULTY	Lecture Family Medicine TOPIC Management of unwell child Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Community Medicine Topic Population pyramids Facilitator Prof Rana Akhtar <u>LECTURE HALL 4</u>		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		Pathology Practical (Batch C) Family Medicine Tutorial (Batch A) Research IT Lab work (Batch B)	
24-Apr-26	FRI	8.00-9.00	9.00-10.00	10.00-11.00	11.00-1.00		1.00-2.00		2.00-3.30
		Lecture Medicine TOPIC Hematemesis. Facilitator Dr. Hamsira <u>LECTURE HALL 4</u>	Lecture Surgery TOPIC Intussusception Facilitator Dr. Fatima Ahmed <u>LECTURE HALL 4</u>	Lecture Family Medicine TOPIC Counsel patient and caregivers. Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		<u>JUMA BREAK</u>		Lecture <u>FERL</u> TOPIC Equitable access to care. Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>

Prepared by DME Principal Prof.Dr.Gulfreem Waheed

AVICENNA MEDICAL & DENTAL COLLEGE BLOCK 10 MODULE 24									
TIME TABLE M-22		4th YEAR MBBS	SESSION 2025-2026						Week 4
DATE	DAY	8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
27-Apr-26	MON	Lecture Community Medicine TOPIC Determinants of fertility and mortality. Facilitator Prof Rana Akhtar <u>LECTURE HALL 4</u>	Lecture Pathology TOPIC Celiac disease. Facilitator Dr. Nabila Akram <u>LECTURE HALL 4</u>	Lecture Medicine TOPIC Abdominal pain. Facilitator Dr. Salman <u>LECTURE HALL 4</u>	BREAK	Lecture Surgery TOPIC Appendicitis in Children Facilitator Dr. Basil Rivvi <u>LECTURE HALL 4</u>	Lecture Family Medicine TOPIC Causes of secondary headache including intracranial and systemic. Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	Community Medicine (Research) Pathology Tutorial Pharmacology Tutorial	
28-Apr-26	TUE	8.00-9.00	9.00-10.00	10.00-11.00		11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
		Lecture ENT TOPIC Disorders of External Ear Facilitator Prof. Rirwan Bajwa <u>LECTURE HALL 4</u>	Lecture Family Medicine TOPIC Common mental health disorders. Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Pathology TOPIC Infectious enterocolitis Facilitator Dr. Majid Rauf <u>LECTURE HALL 4</u>		Lecture Community Medicine TOPIC Lead poisoning Facilitator Prof. Dr Muhammad Usman Sheikh <u>LECTURE HALL 4</u>	Lecture Medicine TOPIC Acid peptic disease Facilitator Dr. Salman <u>LECTURE HALL 4</u>	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
29-Apr-26	WED	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Lecture Pathology TOPIC Crohn's disease and ulcerative colitis Facilitator Dr. Nabila Akram <u>LECTURE HALL 4</u>	Lecture Eye TOPIC Conjunctiva (Infective Conjunctivitis) Facilitator Dr Tariq <u>LECTURE HALL 4</u>	Lecture ENT TOPIC Eustachian Tube Disorders Facilitator Dr. Usman Aslam <u>LECTURE HALL 4</u>		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		Pathology Practical (Batch B) Family Medicine Tutorial (Batch C) Research IT Lab work (Batch A)	
30-Apr-26	THU	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Grand Test Pathology Topic GIT and Nutrition II (Topics covered in lectures) Facilitator Dr. Nabila Akram	Lecture Family Medicine TOPIC Management for common psychiatric disorders and emergencies. Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Community Medicine TOPIC demographic transition. Facilitator Prof Rana Akhtar <u>LECTURE HALL 4</u>		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		Pathology Practical (Batch C) Family Medicine Tutorial (Batch A) Research IT Lab work (Batch B)	
1-May-26	FRI	8.00-9.00	9.00-10.00	10.00-11.00	11.00-1.00		1.00-2.00	2.00-3.30	
		Labour Day

TIME TABLE M-22		4th YEAR MBBS	SESSION 2025-2026						WEEK 6
DATE	DAY	8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
11-May-26	MON	Lecture Community Medicine TOPIC Communicable diseases during disaster. Facilitator Dr. Muneeb LECTURE HALL 4	Lecture Pathology TOPIC Acute appendicitis. Facilitator Dr. Nabila Akram LECTURE HALL 4	Lecture Medicine TOPIC Inflammatory bowel disease. Facilitator Dr. Salman LECTURE HALL 4	BREAK	Lecture Surgery TOPIC Phimosis and paraphimosis. Facilitator Dr. Shashrad LECTURE HALL 4	Lecture Family Medicine TOPIC Management of common urogenital conditions. Facilitator Dr. Sadia Malik LECTURE HALL 4	Community Medicine (Research) Pathology Tutorial Pharmacology Tutorial	
12-May-26	TUE	8.00-9.00	9.00-10.00	10.00-11.00		11.30-12.30	12.30-1.30	1.30-2.30	2.30-3.30
		Lecture ENT TOPIC Complications of CSOM (Intracranial). Facilitator Prof. Riwana Bajwa LECTURE HALL 4	Lecture Family Medicine TOPIC Common skin fungal infections. Facilitator Dr. Sadia Malik LECTURE HALL 4	Lecture Pathology TOPIC Anti-emetics. Facilitator Dr. Aima Saeed LECTURE HALL 4		Lecture Community Medicine TOPIC Nutrition and balanced diet. Facilitator Dr. SANA LECTURE HALL 4	Lecture Medicine TOPIC Gastroesophageal reflux disease (GERD). Facilitator Dr. Salman LECTURE HALL 4	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
13-May-26	WED	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Lecture Pathology TOPIC Alcoholic liver disease (fatty liver, alcoholic hepatitis, and cirrhosis). Facilitator Prof. Saeed Afzal LECTURE HALL 4	Lecture Eye TOPIC Proptosis (Thyroid eye disease, IOID, Fungal Tumors). Facilitator Prof. Khalid LECTURE HALL 4	Lecture ENT TOPIC Complications of CSOM (Intratemporal). Facilitator Prof. Sami Mumtaz LECTURE HALL 4		CLINICAL ROTATION / CLINICAL SKILLS		Pathology Practical (Batch B) Family Medicine Tutorial (Batch C) Research IT Lab work (Batch A)	
14-May-26	THU	8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
		Lecture Pharmacology TOPIC Classify prokinetic drugs, their pharmacokinetics, mechanism of action, uses, adverse effects, drug interaction, Cathartic stool, Softeners & laxatives. Facilitator Dr. Aska Khan LECTURE HALL 4	Lecture Family Medicine TOPIC Common bacterial & viral skin infections. Facilitator Dr. Sadia Malik LECTURE HALL 4	Lecture Community Medicine TOPIC Malnutrition. Facilitator Dr. SANA LECTURE HALL 4		CLINICAL ROTATION / CLINICAL SKILLS		Pathology Practical (Batch C) Family Medicine Tutorial (Batch A) Research IT Lab work (Batch B)	
15-May-26	FRI	8.00-9.00	9.00-10.00	10.00-11.00	11.00-1.00		1.00-2.00	2.00-3.30	
		Lecture Eye TOPIC Lacrimal apparatus: Epiphora, lacrimation. Facilitator Prof. Rafe LECTURE HALL 4	Community Medicine (Research) Pathology Tutorial Pharmacology Tutorial		CLINICAL ROTATION / CLINICAL SKILLS		JUMA BREAK	Lecture PERL Research Field Survey	

AVICENNA MEDICAL & DENTAL COLLEGE									
TIME TABLE M-22		4th YEAR MBBS	SESSION 2025-2026						WEEK 7
DATE	DAY	8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-12.30	12:30-1:30	1.30-2.30	2.30-3.30
18-May-26	MON	Lecture Community Medicine TOPIC Health planning Facilitator Dr.AFTAB IQBAL <u>LECTURE HALL 4</u>	Lecture Pathology TOPIC Jaundice Facilitator Prof. Saeed Afral <u>LECTURE HALL 4</u>	Lecture Medicine TOPIC Acute gastroenteritis Facilitator Dr. Imran <u>LECTURE HALL 4</u>	BREAK	Lecture Surgery TOPIC Vesical and Cloacal Exstrophy Facilitator Dr. Uzma <u>LECTURE HALL 4</u>	Lecture Family Medicine Facilitator <u>LECTURE HALL 4</u>	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
19-May-26	TUE	8.00-9.00	9.00-10.00	10.00-11.00		11.30-12.30	12:30-1:30	1.30-2.30	2.30-3.30
		Lecture ENT TOPIC Otosclerosis Facilitator Dr. Usman Aslam <u>LECTURE HALL 4</u>	Lecture Family Medicine TOPIC Common inflammatory and allergic skin conditions Facilitator Dr. Sadia Malik <u>LECTURE HALL 4</u>	Lecture Pathology TOPIC Viral hepatitis (A, B, C, D, and E) Facilitator Prof. Saeed Afral <u>LECTURE HALL 4</u>		Lecture Community Medicine TOPIC Health planning Facilitator Dr AFTAB <u>LECTURE HALL 4</u>	Lecture Medicine TOPIC Malabsorption syndromes. Facilitator Dr. Humaira <u>LECTURE HALL 4</u>	Pathology Practical (Batch A) Family Medicine Tutorial (Batch B) Research IT Lab work (Batch C)	
		8.00-9.00	9.00-10.00	10.00-11.00		11.30-1.30		1.30-2.30	2.30-3.30
20-May-26	WED	Lecture Community Medicine TOPIC Sampling techniques. Facilitator Prof Rana Akhtar <u>LECTURE HALL 4</u>	Lecture Eye TOPIC Lacrimal apparatus (acute/chronic dacryocystitis) Dacryoadenitis Facilitator Prof Rafe <u>LECTURE HALL 4</u>	Lecture ENT TOPIC Facial Nerve Palsy Facilitator Prof. Riwaz Bajwa <u>LECTURE HALL 4</u>		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>			Pathology Practical (Batch B) Family Medicine Tutorial (Batch C) Research IT Lab work (Batch A)
		8.00-9.00	9.00-10.00	10.00-11.00	11.00-11.30	11.30-1.30		1.30-2.30	2.30-3.30
21-May-26	THU	Module (24) Exam							
22-May-26	FRI	8.00-9.00	9.00-10.00	10.00-11.00	11.00-1.00		1.00-2.00	2.00-3.30	
		Lecture Eye TOPIC Blow out fracture Facilitator Prof Khalid <u>LECTURE HALL 4</u>	Community Medicine (Research) Pathology Tutorial Pharmacology Tutorial		<u>CLINICAL ROTATION / CLINICAL SKILLS</u>		<u>JUMA BREAK</u>	Lecture <u>PERL</u> Research Field Survey

MODULE OUTCOMES

- Apply biostatistical and epidemiological methods to collect, analyze, interpret, and present health data for evidence-based decision-making and research.
- Analyze demographic principles, transitions, and indicators to evaluate their implications for population health and healthcare planning in the context of Pakistan and globally.
- Evaluate occupational and environmental health risks, identify related diseases and hazards, and propose preventive, protective, and management strategies within legal and organizational frameworks.
- Develop and apply strategies for disaster preparedness, response, and recovery, including triage, relief management, and community mobilization.
- Critically appraise health systems, planning processes, and policies, and relate them to sustainable development goals and the concept of “Health for All.”

SUBJECTS INTEGRATED IN THE MODULE

1. Family Medicine
2. Community medicine

Learning Objectives

THEORY			
COMMUNITY MEDICINE-II			
CODE	SPECIFIC LEARNING OUTCOMES	INTEGRATING DISCIPLINE	TOPIC
	Explain the basic concepts and uses of biostatistics.		
	Classify data according to its types.		

CMF H2- CM- 001	Define and apply rates, ratios, and proportions in health contexts.	Communit y Medicine	Biostatistic s and Health Manageme nt Information System
	Describe the process of collection and registration of vital events in Pakistan.		
	Apply methods of data presentation, including tables, graphs, and diagrams.		
	Calculate measures of central tendency (mean, median, mode).		
	Calculate measures of dispersion (range, standard deviation, standard error).		
	Interpret the normal curve and its applications in health sciences.		
	Analyze and apply sampling techniques in health research.		
	Apply and interpret health data using statistical tests such as t-test and chi-square. Apply and interpret health data using correlation.		
CMF H2- CM- 002	Explain demographic principles and demographic processes.	Communit y Medicine	Demogra phy and Populatio n Dynamics
	Describe population pyramids and differentiate between those of developing and developed countries.		
	Interpret and apply population pyramids to analyze population structures.		

	Identify and analyze determinants of fertility and mortality. Calculate and interpret indicators of fertility and mortality.		
	Describe the stages of demographic transition. Describe, calculate, and interpret the dependency ratio, growth rates, and population doubling time.		
	Explain demographic concepts such as demographic trap, demographic window, demographic bonus, and demographic dividend.		
	Define and explain the methodology and types of censuses, and evaluate their importance for health planning.		
	Discuss the implications of high population growth, social mobilization, and urbanization, and apply these to the context of Pakistan.		
	Explain the concepts of occupational health, occupational medicine, and occupational hygiene.		
	Identify and classify physical, chemical, biological, mechanical, and psychosocial workplace hazards.		
	Apply general principles of occupational disease prevention in workplace settings.		

CMF H2- CM- 003	Define and discuss ergonomics and its importance in occupational health.	Comm nity Medici ne	Occupa tiona l Heal th
	Interpret causes and recognize signs and symptoms of occupational lung diseases, including pneumoconiosis, silicosis, anthracosis, byssinosis, bagassosis, asbestosis, and farmer's lung.		
	Analyze the causes, signs, and diagnosis of lead poisoning, and propose preventive and management strategies.		

	Describe accidents in the industry, sickness absenteeism, and other health problems due to industrialization. Recommend medical, engineering and legislative measures for worker protection.		
CMF H2- CM- 004	Define and classify disasters.	Comm nity Medici ne	Disaster Managem ent and accidents
	Describe and explain disaster cycle and its phases.		
	Explain the epidemiology and preventive strategies of communicable diseases during disaster. Describe impact of man-made disasters.		
	Explain and apply the principles of triage in disaster situations.		
	Define health planning and apply its relevance in healthcare delivery.		
	Describe the steps of the health planning cycle.		

CMF H2- CM- 005	Discuss key management methods and techniques used in health planning.	Commu nity Medici ne	Health Planning and Managemen t
------------------------------------	--	---	--

THEORY			
FAMILY HEALTH-II			
CODE	SPECIFIC LEARNING OUTCOMES	INTEGRATING DISCIPLINE	TOPIC
CMF H2- FM- 001	Define and classify headache.	Family Medicine / Neurolo gy/ Medicine	Headac he
	Diagnose the following based on signs and symptoms: i. Migraine (with/without aura) ii. Tension-type headache iii. Cluster headache Identify red flags.		
	List the common causes of secondary headache including intracranial and systemic.		
	Outline the treatment of migraine, tension-type, and cluster headaches. Prescribe prophylactic treatment for recurrent primary headaches. Plan the management of secondary headaches according to cause. Advise non-pharmacological measures.		
	Classify fever based on duration and pattern. Explain their clinical relevance in primary care.		

CMF H2- FM- 002	Outline the common infectious and non-infectious causes of fever, with emphasis on locally prevalent conditions.	Family Medicine/ Medicine	Fever
	Enlist baseline investigations in the evaluation of fever in primary care.		
	Outline the symptomatic management and disease-specific treatment at the primary care level.		
	Counsel patients and caregivers on home management of fever.		
	Identify red flag features in febrile patients that require urgent referral.		

	List the common causes of an unwell child presentation.		
	Outline the initial assessment of a sick child. Identify the red flag signs of serious illness in children.		
	Enlist the baseline investigations.		
	Plan the management of unwell child including i. Immediate stabilization ii. Symptomatic management iii. Specific management according to cause iv. Indications for referral and hospitalization		

CMF H2- FM- 003	Discuss preventive aspects including: i. Importance of immunization ii. Nutrition iii. Early recognition of illness by caregivers	Family Medicine/ Paediatrics	Unwell child
CMF H2- FM- 004	Enlist the common mental health disorders relevant to general practice.	Family Medicine/ Psychiatry	Mental Health
	Outline the key signs and symptoms important for early detection of psychiatric conditions.		
	Discuss the principles of initial management and referral pathways for common psychiatric disorders and emergencies.		
	Explain the role of general practitioners in promoting mental health and reducing stigma.		
CMF H2- FM- 005	Enlist common causes of weakness and weight loss.	Family Medicine/Medicine	Generalized weakness and weight loss
	Outline baseline investigations to guide initial evaluation at the primary care level.		
	Evaluate patients for red flag features that warrant urgent referral.		
	Formulate an initial management plan, including symptomatic care, preventive counseling, and referral.		

	Discuss the role of family physicians in promoting early recognition, lifestyle modification, and community awareness to prevent late presentations.		
CMF H2- FM- 006	Identify common urogenital symptoms in males and females.	Family Medicine/ Nephrology/ Urology	Urogenital Symptoms (Male and female)
	Enlist the common causes.		
	Outline baseline investigations to reach diagnosis.		
	Evaluate warning signs that require urgent referral.		
	Discuss the general principles of management of common urogenital conditions in primary care, including symptomatic treatment, infection control, and referral.		
	Diagnose common skin fungal infections based on clinical presentation and outline their primary care management.		
	Identify common ectoparasitic infestations (scabies, pediculosis), manage appropriately, and counsel regarding treatment of contacts and preventive measures.		
	Diagnose common bacterial skin infections (cellulitis, folliculitis). Identify red flags for urgent referral. Outline initial primary care management.		

CMF H2- FM- 007	Diagnose and manage common viral skin infections (warts, herpes simplex) at primary care level, and identify cases requiring referral.	Family Medicine / Dermatol ogy	Skin Conditions (common OPD cases)
	Diagnose common inflammatory and allergic skin conditions (eczema, atopic dermatitis, acne vulgaris) based on signs and symptoms. Outline primary care management including lifestyle advice, topical therapy, and patient education.		
CMF H2- FM- 008	Identify common geriatric problems including pressure ulcers, incontinence, falls, functional		

	decline, and delirium, and evaluate their impact on the quality of life of older adults.	Famil y Medic ine/ Medic ine	Common Geriatric Issues
	Discuss the components of a basic geriatric assessment, including physical, functional, cognitive, and social aspects.		
	Identify red flag symptoms in elderly patients (acute confusion, unexplained weight loss, recurrent falls, elder abuse/neglect) that require urgent evaluation or referral.		
	Counsel elderly patients and caregivers regarding chronic disease management, adherence, rehabilitation, and end-of-life care options.		

Operational Definition

Traditional & Innovative Teaching Methodologies

Sr.	Pedagogical Methodologies	Description
1.	Lectures	Traditional method where an instructor presents information to a large group of students (large group teaching). This approach focuses on delivering theoretical knowledge and foundational concepts. It is very effective for introducing new topics.
2.	Tutorial	Tutorials involve small group discussion (SGD) where students receive focused instruction and guidance on specific topics.
3	Demonstrations	Demonstrations are practical displays of techniques or procedures, often used to illustrate complex concepts or practices, particularly useful in dental education for showing clinical skills.

4	Practical	Hands-on sessions where students apply theoretical knowledge to real-world tasks. This might include lab work, clinical procedures, or simulations. Practical are crucial for developing technical skills and understanding the application of concepts in practice.
5.	Student Presentations	Students prepare and deliver presentations on assigned topics. This method enhances communication skills, encourages students to explore topic in-depth. It also provides opportunities for peer feedback and discussion.
6.	Assignment	Tasks given to students to complete outside of class. Assignments can include research papers, case studies, or practical reports. They are designed to reinforce learning, assess understanding, and develop critical thinking and problem-solving skills.
7.	Self-directed Learning	Students take initiative and responsibility for their own learning process. Students are encouraged to seek resources, set goals, and evaluate their progress. This is a learner-centered approach where students take the initiative to plan, execute, and assess their own learning activities. This method promotes independence, critical thinking, and lifelong learning skills.
8.	Flipped Classroom	In this model, students first engage with learning materials at home (e.g., through videos, readings) and then use class time for interactive activities, discussions, or problem-solving exercises. This approach aims to maximize in-class engagement and application of knowledge.
9.	Peer-Assisted Learning (PAL)	A collaborative learning approach where students help each other understand course material. PAL involves structured peer tutoring, study groups, or collaborative tasks. It enhances comprehension through teaching, reinforces learning, and builds teamwork skills.
10.	Team-based Learning (TBL)	A structured form of small group learning where students work in teams on application-based tasks and problems. Teams are responsible for achieving learning objectives through collaborative efforts, promoting accountability, and deeper understanding of the material.
11.	Problem-based Learning (PBL)	Students work on complex, real-world problems without predefined solutions. They research, discuss, and apply knowledge to develop solutions. PBL fosters critical thinking, problem-solving skills, and the ability to integrate knowledge from various disciplines.
12.	Academic Portfolios	A collection of student's work that showcases learning achievements, reflections, and progress over time. Portfolios include assignments, projects, and self-assessments. They provide a comprehensive view of student development, highlight strengths and areas for improvement, and support reflective learning (experiential learning)

13.	Seminar	A seminar is an academic or professional setting where individuals discuss, present, and explore specific topics, often with expert guidance
-----	---------	--

Assessment Policy

Introduction

This policy outlines the guidelines for internal assessment of students at Avicenna Medical and Dental College. Internal assessment plays a crucial role in evaluating a student's progress, understanding their strengths and weaknesses, and providing timely feedback. This policy aims to ensure fairness, consistency, and transparency in the internal assessment process.

Internal Assessment Components

The internal assessment for each course will be comprised of the following components:

1. Attendance

8. Attendance will be recorded regularly and will contribute to the overall internal assessment score.
9. Students are expected to maintain a minimum attendance of 75% to be eligible for internal assessment marks.

2. Continuous Assessment

- Continuous assessment will be based on regular assignments, quizzes, presentations, and other activities conducted throughout the semester.

- These assessments will evaluate students' understanding of the course material, their critical thinking skills, and their ability to apply knowledge to real-world scenarios.

3. Grand Test and Module Exams

- Grand tests and module exams will be conducted to assess students' comprehensive understanding of the course content.
- These exams will be designed to evaluate both theoretical knowledge and practical skills.

4. Attitude and Behavior

- Students' attitude towards learning, participation in class activities, and adherence to college rules and regulations will be assessed.
- This component will evaluate students' professionalism, teamwork skills, and ethical conduct.

5. Logbook and Portfolio

- Students will be required to maintain a logbook and portfolio to document their learning journey.
- The logbook will include reflections on lectures, tutorials, and practical sessions.
- The portfolio will showcase students' best work, including assignments, projects, and research papers.

Assessment Criteria and Weighting

The following table outlines the weighting of each component in the internal assessment:

Component	Marks	Percentage
Attendance	6	2%
Continuous Assessment	12	4%
Grand Test and Module Exams	30	10%
Attitude and Behavior	10	3%

Logbook and Portfolio	2	1%
Total	60	20%

Assessment Procedures

- i. Faculty Responsibility: Faculty members will be responsible for designing and administering the internal assessments in accordance with the course syllabus and this policy.
- ii. Marking and Grading: Faculty members will mark and grade the assessments using a transparent and consistent marking scheme. Candidates shall be required to score at least 50% marks in the internal assessment in each subject to become eligible for admission to professional examinations.
- iii. Feedback: Faculty members will provide timely and constructive feedback to students on their performance.
- iv. Record-Keeping: Faculty members will maintain accurate records of all internal assessments, including marks and feedback.
- v. Moderation: Internal assessments will be moderated by the course coordinator or the head of the department to ensure fairness and consistency.

Appeal Process

Students who have concerns about their internal assessment marks may appeal to the concerned faculty member or the head of the department. The appeal process will be handled promptly and fairly.

The internal assessment policy is designed to promote student learning, assess their progress, and provide a fair and transparent evaluation system. Faculty members and students are expected to adhere to this policy to ensure the integrity of the internal assessment process.

Attendance Requirement & Internal Assessment Criteria

The institution follows the regulations for examinations of the UHS in letter and spirit. The students require **75% attendance** in all academic sessions and **50% passing marks** with internal assessments and send-up examinations to be eligible for the UHS Professional Examinations.

Assessment Guidelines

Assessment in medical & dental education is a critical component designed to ensure that medical & dental students acquire the necessary knowledge, skills, and competencies required for effective medical & dental practice.

Assessment drives learning! – George E. Millar

You will encounter a variety of assessment methods, each serving a specific purpose.

1. Written examinations, including multiple-choice and essay questions, will test your grasp of theoretical concepts and subject matter.
2. Practical assessments will require you to demonstrate your clinical skills and ability to apply knowledge in real-world scenarios.
3. Clinical exams will evaluate your communication skills and reasoning abilities through case discussions and problem-solving exercises.
4. Clinical skills and work-place based assessments will observe your hands-on proficiency and patient management capabilities.

At Avicenna Medical & Dental College, internal assessments are systematically conducted throughout each academic year of the MBBS program, as per the guidelines established by the University of Health Sciences (UHS). These assessments, overseen by the Assessment Cell, adhere to either the Annual Subject-Based System or the Integrated/Modular System, depending on the curriculum structure.

Notably, beginning with the 2024-25 academic year, the weightage of internal assessments will be increased from 10% to 20%. The UHS administers professional examinations independently, organizing them at designated neutral sites and appointing external examiners to ensure objectivity and fairness.

Internal Assessment Weightage	20%	100%
External Assessment Weightage	80%	

INTERNAL ASSESSMENT

It shall constitute 20% of the total assessment at the end of the academic year.

	Scoring Parameter	Weightage (Percentage)
Theory 10 %	Attendance	75% attendance -1 % >85% attendance -2 %
	Block Exam	5 %
	Continuous assessment	3 %
Practical 10 %	Attendance	75% attendance -1 % >85% attendance -2 %
	Block Exam (OSCE / OSPE / OSVE / Short case)	5 %
	Portfolio-clinical logbooks (CFRC / PERLs / Clinical Clerkship)	3 %

Assessment Schedule:

Avicenna Medical College

3	CMFH2-FM-003	Family Medicine/ Paediatrics	Unwell child	List the common causes of an unwell child presentation. Outline the initial assessment of a sick child. Identify the red flag signs of serious illness in children. Enlist the baseline investigations. Plan the management of unwell child including i. Immediate stabilization ii. Symptomatic management iii. Specific management according to cause iv. Indications for referral and hospitalization	✓	✓	✓	✓	✓	1				

1	GIT2-Pa-001	Pathology	Oral infectious diseases	Classify and describe the morphological features of oral infectious diseases.	✓	✓	✓	✓	✓	1				
	GIT2-Pa-002		Oral lesions	Describe briefly benign, premalignant, and malignant oral lesions.										
2	GIT2-Pa-003		Salivary gland tumors	Classify salivary gland tumors into benign and malignant types.										
	GIT2-Pa-004		Pleomorphic adenoma	Discuss the histopathological features of pleomorphic adenoma and Warthin's tumors.										
	GIT2-Pa-005		Malignant salivary gland tumors	Differentiate the pathological features of common malignant salivary gland tumors.	✓	✓	✓	✓	✓	1				
	GIT2-Pa-006		Diagnostic tools	Explain the role of immunohistochemistry and other diagnostic tools in differentiating between various salivary gland tumors.										
3	GIT2-Pa-007	Pathology	Esophageal obstruction	Discuss in detail the pathological causes of esophageal obstruction.										
	GIT2-Pa-008		Esophagitis	Enumerate and describe the pathogenesis of different types of esophagitis.	✓	✓	✓	✓	✓	1				
	GIT2-Pa-009		Esophageal Varices	Describe the pathogenesis of esophageal varices.										
4	GIT2-Pa-010	Pathology	Barret's Esophagus	Describe in detail the morphology of Barret's esophagus with major complications.	✓	✓	✓	✓	✓	1				
5	GIT2-Pa-011	Pathology	Esophageal Tumors	Classify esophageal tumors. Describe the pathogenesis and morphology of adenocarcinoma and squamous cell carcinoma of the esophagus.	✓	✓	✓	✓	✓	1				
6	GIT2-GE-012		Dysphagia	Define dysphagia. Explain the pathophysiological mechanisms leading to dysphagia. Outline the etiology of dysphagia. Develop a stepwise diagnostic and management plan for a patient presenting with dysphagia.	✓	✓	✓	✓	✓	1				

7	GIT2-GE-013	Gastroenterology / Medicine	Gastroesophageal Reflux Disease (GERD)	Diagnose gastroesophageal reflux disease (GERD) on the basis of characteristic symptoms and clinical presentation. Enlist the etiology and pathophysiology of GERD.	✓	✓	✓	✓	✓	1				
8	GIT2-GE-014		Achalasia	Diagnose achalasia on the basis of characteristic symptoms and clinical presentation. Describe the etiology and pathophysiology of achalasia. Outline the diagnostic investigations for achalasia. Interpret the radiological and endoscopic findings in achalasia. Discuss the treatment options for achalasia.	✓	✓	✓	✓	✓	1				
9	GIT2-GE-015		Esophageal Esophageal	Diagnose esophageal candidiasis based on its specific signs and symptoms. Enumerate the risk factors for esophageal candidiasis. Outline the diagnostic investigations and discuss the treatment options for esophageal candidiasis.	✓	✓	✓	✓	✓	1				
10	GIT2-GE-016		Esophageal cancer	Describe the risk factors for esophageal cancer. Diagnose esophageal cancer from its symptoms and clinical presentation. Outline the diagnostic investigations for esophageal cancer. Explain the staging of esophageal cancer. Discuss the treatment options for esophageal cancer.	✓	✓	✓	✓	✓	1				
11	GIT2-Pa-017	Pathology	Acute gastritis	Describe the pathogenesis and morphology of acute gastritis.	✓	✓	✓	✓	✓	1				
	GIT2-Pa-018		Chronic gastritis	Enumerate the causes of chronic gastritis with special emphasis on the pathogenesis of H. Pylori gastritis and autoimmune gastritis.										
12	GIT2-Pa-019	Pathology	Peptic ulcer disease	Describe the pathogenesis, morphology, and complication of peptic ulcer disease.	✓	✓	✓	✓	✓	1				
	GIT2-Pa-020		Hypertrophic gastropathies	Discuss in detail the hypertrophic gastropathies.										

14	GIT2-Pa-022	Pathology	Gastric tumors	Classify gastric tumors. Describe the morphology of gastric adenocarcinomas and its two types. Describe the morphology of malignant and its immunohistochemistry. Describe the morphology and variants of Gastrointestinal Stromal Tumours (GIST) and its immunohistochemistry. Describe the location, morphology, and important features of carcinoid tumors.	✓	✓	✓	✓	✓	1						
15	GIT2-GE-023	Gastroenterology / Medicine	Vomiting	Explain the causes and pathophysiology of vomiting, including central and peripheral pathways. Formulate a differential diagnosis for patients presenting with vomiting. Identify red flag features requiring urgent evaluation. Enlist investigations. Outline management strategies.	✓	✓	✓	✓	✓	1						
16	GIT2-GE-024		Hematemesis	Enumerate the causes of hematemesis. Identify risk factors for upper gastrointestinal bleeding. Describe the clinical presentations. Outline the investigations and procedures used to establish a diagnosis.	✓	✓	✓	✓	✓	1						
17	GIT2-GE-025		Abdominal pain	Enumerate the causes of abdominal pain. Develop a differential diagnosis for abdominal pain. Outline the investigations required to establish a diagnosis. Describe the treatment options for abdominal pain.	✓	✓	✓	✓	✓	1						
18	GIT2-GE-026		Acid peptic disease	Diagnose acid peptic disease based on symptoms, clinical presentation, and risk factors. Explain the role of Helicobacter pylori in the pathogenesis of acid peptic disease. Plan the diagnostic workup and management options.	✓	✓	✓	✓	✓	1						
19	GIT2-GE-027		Gastric carcinoma	Classify the types of gastric cancer. Enlist the risk factors for gastric cancer. Describe clinical presentation. Plan the diagnostic workup for gastric cancer. Explain the staging of gastric carcinoma.	✓	✓	✓	✓	✓	1						
20	GIT2-S-028	Surgery	Duodenal obstruction	Describe the causes of duodenal obstruction. Diagnose duodenal tumours based on clinical presentation. Outline the investigations to confirm diagnosis.	✓	✓	✓	✓	✓	1						

25	GIT2-Ph-033		Mucosal Protective Agents	Enumerate Mucosal Protective Agents and the drugs used for eradication of H. Pylori. Describe their pharmacokinetics, mechanism of action, pharmacological effects, uses, adverse effects, drug interactions, and contraindications. Describe triple regimen, quadruple regimen & sequential therapy for eradication of H. Pylori.										
26	GIT2-Ph-034		Anti-emetics	Classify anti-emetics. Describe their pharmacokinetics, mechanism of action, pharmacological effects, uses, adverse effects, drug interactions, and contraindications. Tabulate differences between metoclopramide and Domperidone.	✓	✓	✓	✓	✓	1				
27	GIT2-Pa-035	Pathology	Diseases of the Small and Large Intestines	Describe the morphological features of ischemic bowel disease with special emphasis on its causes and mutations involved. Enumerate the pathological causes of malabsorption syndrome. Describe the morphology, Marsh classification, and lab diagnosis of Celiac disease. Describe the pathogenesis and	✓	✓	✓	✓	✓	2				
28	GIT2-Pa-036	Microbiology	Causative agents of infectious enterocolitis	Enumerate the common causative agents of infectious enterocolitis including bacterial, viral, and parasitic. Explain the pathogenesis of enterocolitis caused by Salmonella, Mycobacterium tuberculosis, and Clostridium difficile.	✓	✓	✓	✓	✓	1				
29	GIT2-Pa-037	Pathology	Crohn's disease and ulcerative colitis	Describe the pathogenesis, GIT2-Pa-03 microscopic and macroscopic features, and complications of Crohn's disease and Ulcerative colitis.	✓	✓	✓	✓	✓	1				
30	GIT2-Pa-038		Intestinal polyps	Classify the intestinal polyps. Describe the morphological features of: i. Hyperplastic polyps ii. Inflammatory polyps iii. Hamartomatous polyps iv. Peutz-Jeghers syndrome Classify polyposis syndromes and describe:	✓	✓	✓	✓	✓	1				
			Neoplastic polyps	Classify neoplastic polyps and describe their morphological features in detail. Describe in detail the pathogenesis and										

31	GIT2-Pa-039	Pathology	Neoplastic polyps and colorectal carcinoma	Classify neoplastic polyps and describe their morphological features in detail. Describe in detail the pathogenesis and morphological features of colorectal carcinoma. Enumerate immunohistochemical markers and TNM/ AJCC staging.	✓	✓	✓	✓	✓	1					
32	GIT2-Pa-040		Diseases of appendix	Describe the etiology and morphological features of acute appendicitis. Classify the tumors of the appendix and discuss their clinical importance.	✓	✓	✓	✓	✓	1					
33	GIT2-Ge-041	Gastroenterol	Diarrhea (acute and chronic)	Enlist causes of acute and chronic diarrhea. Develop a differential diagnosis of diarrhea. Explain the pathophysiology of acute and chronic diarrhea.	✓	✓	✓	✓	✓	1					
34	GIT2-Ge-042		Acute gastroenteritis	Identify the common causes of acute gastroenteritis. Diagnose on the basis of characteristic symptoms and clinical presentation. Outline diagnostic investigations with management plan.	✓	✓	✓	✓	✓	1					
35	GIT2-Ge-043		Malabsorption syndromes	Classify malabsorption syndromes. Identify the symptoms and signs of malabsorption. Enlist investigations to establish the diagnosis. Describe treatment strategies for different malabsorption syndromes.	✓	✓	✓	✓	✓	1					
36	GIT2-Ge-044		Inflammatory bowel disease	Classify inflammatory bowel disease. Identify the risk factors, clinical presentations, and associations of ulcerative colitis and Crohn's disease. List the investigations and treatment plans with follow-up for monitoring and long-term management.	✓	✓	✓	✓	✓	1					

37	GIT2-Ge-045	o gg/Medicine	Irritable bowel syndrome (IBS)	Define Irritable bowel syndrome (IBS). Describe the etiology and clinical presentation of IBS. Formulate a differential diagnosis for patients with suspected IBS. Outline investigations and treatment strategies.	✓	✓	✓	✓	✓	1						
38	GIT2-Ge-046		Intestinal cancers	Classify the types of small and large intestinal cancers. Identify the risk factors and clinical presentation. Outline the staging systems used for intestinal cancers. Outline investigations and treatment options.	✓	✓	✓	✓	✓	1						
39	GIT2-Ge-047		Constipation	Identify the causes of constipation. Formulate a differential diagnosis for patients presenting with constipation. Enlist investigations to establish the diagnosis. Outline treatment strategies for constipation.	✓	✓	✓	✓	✓	1						
40	GIT2-Ge-048		Abdominal tuberculosis	Identify clinical presentation. Outline investigations and treatment strategies for abdominal tuberculosis.	✓	✓	✓	✓	✓	1						
41	GIT2-Ph-049	Pharmacology	Prokinetic drugs	Classify prokinetic drugs. Describe their pharmacokinetics, mechanism of action, pharmacological effects, uses, adverse effects, drug interactions, and contraindications.	✓	✓	✓	✓	✓	1						
42	GIT2-PS-050		Laxative and Purgative	Classify Laxative, Purgative, Cathartic stool, Softeners & Stimulant Purgatives. Describe their pharmacokinetics, mechanism of action, pharmacological effects, uses, adverse effects, drug interactions, and contraindications. Explain the role of lactulose in the treatment of Hepatic Encephalopathy.	✓	✓	✓	✓	✓	1						

	GIT2-PS-051	Surgery [Pediatric Surgery]	Intussusception and causes of intestinal obstruction in children	List causes of congenital (atresia's, neonatal volvulus, malrotation,) and acquired intestinal obstruction. Define intussusception. Classify types of intussusception and pathophysiology. Identify common age group and etiology. Enumerate the classical triad of symptoms.	✓	✓	✓	✓	✓	✓								
43	GIT2-PS-051a		Appendicitis in children	Define acute appendicitis. Identify clinical features and complications of delayed treatment. Outline the diagnostic investigations and initial management.	✓	✓	✓	✓	✓	1								
44	GIT2-PS-051a		Hernia (inguinal & umbilical) and Hydrocoele	Define inguinal hernia and hydrocoele. Classify them in children. Describe the pathophysiology of communicating and non-communicating hydrocoele. Enumerate clinical features of hernia and hydrocoele. Differentiate between two. Outline principles of management with referral for treatment to Pediatric Surgical Setting.	✓	✓	✓	✓	✓	1								
45	GIT2-PS-051a		Phimosis and paraphimosis	Define Phimosis and Paraphimosis. Differentiate physiological and pathological phimosis. Enumerate complications. Outline management options.	✓	✓	✓	✓	✓	1								
46	GIT2-PS-051a		Vesical and Cloacal Exstrophy	Define vesical and cloacal exstrophy. Describe embryological basis. Enumerate clinical features. Outline management principles.	✓	✓	✓	✓	✓	1								
47	GIT2-Pa-052		Jaundice	Enumerate the causes of jaundice with special emphasis on hereditary hyperbilirubinemias. Differentiate between cholestasis and hepatocellular jaundice. Describe the pathological changes in liver cirrhosis that occur at the cellular and structural levels. Interpret liver function tests (LFTs) and	✓	✓	✓	✓	✓	1								

48	GIT2-Pa-053	Pathology	Viral hepatitis	Identify the etiology and pathogenesis of viral hepatitis (A, B, C, D, and E), including their modes of transmission and effects on the liver. Identify the clinical and pathological features of acute liver failure.	✓	✓	✓	✓	✓	1						
49	GIT2-Pa-054		Alcoholic and non-alcoholic fatty liver disease	Explain the pathogenesis and morphology of alcoholic liver disease (fatty liver, alcoholic hepatitis, and cirrhosis). Describe non-alcoholic fatty liver disease (NAFLD) and its progression to non-alcoholic steatohepatitis (NASH) and cirrhosis. Describe the differentiating features of	✓	✓	✓	✓	✓	1						
50	GIT2-Pa-054		Pathogenesis of Hepatocellular carcinoma	Classify the liver nodules and tumors along with salient morphological features. Discuss the pathogenesis of hepatocellular carcinoma (HCC), including risk factors like cirrhosis and GIT2-Pa-055 hepatitis, precursor lesions, and morphological variants. Describe the differentiating features of	✓	✓	✓	✓	✓	1						
51	GIT2-Pa-054		Cholelithiasis	Enumerate the types of gallstones. Explain the etiopathogenesis of gallstones. Explain the pathophysiology and morphology of acute and chronic cholecystitis.	✓	✓	✓	✓	✓	2						
52	GIT2-Pa-054		Pancreatitis	Describe the pathogenesis of acute pancreatitis, its morphology and lab diagnosis. Describe the morphology of chronic pancreatitis and its complications.	✓	✓	✓	✓	✓	1						
53	GIT2-Pa-054		Pancreatic cancers	Classify the neoplasms of the pancreas, precursor lesions to pancreatic cancers, and its morphology along with tumor markers.	✓	✓	✓	✓	✓	1						

54	GIT2-GE-059	Gastroenterology/Medicine	Jaundice	Define jaundice and describe its major causes. Differentiate between pre-hepatic, hepatic, and post-hepatic jaundice.	✓	✓	✓	✓	✓	1					
55	GIT2-GE-060		Acute and chronic hepatitis	Describe etiology and clinical presentation. Enlist investigations to reach diagnosis. Outline management plan. Discuss prognosis and potential complications of hepatitis.	✓	✓	✓	✓	✓	1					
56	GIT2-GE-061		Management of NAFLD & NASH	Describe non-alcoholic fatty liver disease (NAFLD) and NASH. Identify the risk factors and clinical features of NAFLD. Outline investigations and management plan for patients with NAFLD.	✓	✓	✓	✓	✓	1					
57	GIT2-GE-062		Chronic liver disease	Identify risk factors and describe the clinical course, progression, and outcomes of cirrhosis. Differentiate between compensated	✓	✓	✓	✓	✓	1					
58	GIT2-GE-063		Metabolic and Genetic Disorders of Liver	Describe autoimmune hepatitis, Wilson's disease, hemochromatosis, and alcoholic liver disease with reference to etiology, risk factors, and clinical features. Enlist investigations and procedures to establish a diagnosis. Outline management strategies for these disorders.	✓	✓	✓	✓	✓	1					
59	GIT2-GE-064		Hepatocellular carcinoma	Describe the types, risk factors, and clinical features of hepatocellular carcinoma (HCC). Enlist investigations for diagnosing and staging HCC. Outline the stages of HCC and discuss available treatment options.	✓	✓	✓	✓	✓	1					

60	GIT2-S-065	Surgery	Cholecystectomy	Describe the surgical anatomy and basic function of the gallbladder and bile ducts. Explain in simple terms the formation of gallstones and outline their surgical management. Identify common disorders of the biliary tree.	✓	✓	✓	✓	✓	1				
61	GIT2-S-066		Pancreatitis and its management	Describe the surgical anatomy of the pancreas and important adjacent structures to preserve during surgery. Diagnose acute pancreatitis based on symptoms, signs, and risk factors. Outline the role of surgery in the management of pancreatitis.	✓	✓	✓	✓	✓	1				
62	GIT2-PS-066	Surgery [Pediatric Surgery]	Primary peritonitis	Define primary peritonitis and differentiate from secondary peritonitis. List predisposing factors and common causative organisms. Describe clinical features. Outline	✓	✓	✓	✓	✓	1				
63	GIT2-GE-067	Pathology	Morphology of splenic congestion	Enumerate the causes of splenomegaly. Describe the morphology of splenic congestion and splenic rupture.	✓	✓	✓	✓	✓	1				
64	GIT2-PS-068	Surgery [Pediatric Surgery]	Splenectomy	Enlist the indications for splenectomy. Describe potential complications of splenectomy. Describe the potential advantages of laparoscopic splenectomy. Describe the benefits of splenic conservation. Describe the importance of prophylaxis against infection following splenectomy.	✓	✓	✓	✓	✓	1				
65	GIT2-CM-069		Fundamentals of Nutrition and Balanced Diet	Describe nutrition. Classify food and nutrients. Define balanced diet. Discuss prudent diet and its components. Describe daily requirements of nutrients. Discuss measures to ensure healthy dietary intake.	✓	✓	✓	✓	✓	1				

66	GIT2-CM-069	Community Medicine	Macronutrients and Micronutrients	Describe the role of macronutrients and micronutrients at different stages of life. Explain the importance of dietary fibers and their role in health. Discuss diseases related to deficiencies or excess of macronutrients, vitamins, and minerals.	✓	✓	✓	✓	✓	1				
67	GIT2-CM-070		Macronutrients and Micronutrients	Describe the concept of malnutrition. Classify the types of malnutrition. Identify the causes of malnutrition. Discuss the impact of malnutrition at different stages of life. Describe strategies for control and prevention of malnutrition. Enlist specific preventive measures for malnutrition.										
68	GIT2-CM-071		Malnutrition	Describe the concept of malnutrition. Classify the types of malnutrition. Identify the causes of malnutrition. Discuss the impact of malnutrition at different stages of life. Describe strategies for control and prevention of malnutrition. Enlist specific preventive measures for malnutrition.	✓	✓	✓	✓	✓	1				
69	GIT2-CM-072		Nutritional requirements	Discuss the nutritional requirements of children under 5 years of age. Discuss the nutritional requirements during pregnancy. Discuss the nutritional requirements during adolescence. Explain the consequences of poor nutrition in adolescence on growth, development, and long-term										
70	GIT2-CM-073		Public Health Nutrition Programs	Describe nutritional diseases and related public health programs. Discuss the role of food fortification in improving nutrition. Describe the concept and application of nutritional surveillance. Describe methods of nutritional assessment.	✓	✓	✓	✓	✓	1				
71	GIT2-CM-074		Food Hygiene and Safety	Discuss the concept of food adulteration, food additives, and their health implications. Classify common food-borne diseases. Describe strategies to prevent food-borne diseases.	✓	✓	✓	✓	✓	1				
72	GIT2-CM-075		Perioperative Nutritional Management	Discuss fluid balance management in the perioperative setting. Outline the nutritional requirements of surgical patient	✓	✓	✓	✓	✓	1				

PRACTICAL / LAB WORK

73	GIT2-Pa-076	Pathology	Gastrointestinal tract	Identify the classical morphological features (gross and microscopic) of Barrett's esophagitis, gastric carcinoma, Celiac disease, familial	✓	✓	✓	✓	✓		1 1 1 1		
74	GIT2-Pa-077		Gallbladder & Pancreas	Identify the classical morphological features (gross and microscopic) of fatty liver, liver cirrhosis.	✓	✓	✓	✓	✓		1 1 1

**MODULE-26
EYE & ENT**

76	ENT1-Ear-001	ENT	Hearing Loss	Classify the types of hearing loss. Explain the pathophysiological mechanisms underlying hearing loss.	✓	✓	✓	✓	✓	1				
77				Differentiate between conductive and sensorineural hearing loss.	✓	✓	✓	✓	✓	1				
78				Describe the indications, benefits, and limitations of earing implants.	✓	✓	✓	✓	✓	1				
79	ENT1-Ear-002	ENT	Diseases of the External Ear	Diagnose Perichondritis of pinna on basis of clinical features and plan its management.	✓	✓	✓	✓	✓	1				
80	ENT1-Ear-003	ENT	Diseases of the Middle Ear	Enlist the etiological and risk factors of Acute Otitis Media.	✓	✓	✓	✓	✓	1				
81				Enlist the etiological and risk factors of Acute Otitis Media.	✓	✓	✓	✓	✓	1				
82				Describe the etiology and clinical presentation of Chronic Otitis Media. Outline the management strategies	✓	✓	✓	✓	✓	1				
83				Enlist the potential complications.	✓	✓	✓	✓	✓	1				
84				Outline the management plan of facial paralysis in otitis media.	✓	✓	✓	✓	✓	1				
85				Explain the pathophysiology and risk factors of Otosclerosis. Formulate differential diagnosis. Outline the management plan.	✓	✓	✓	✓	✓	1				
86				Enlist the causes of pre-lingual Sensorineural Hearing Loss. Explain the clinical presentation and diagnostic approach. Plan medical, rehabilitative, and surgical	✓	✓	✓	✓	✓	1				
87	ENT1-Ear-004	ENT	Diseases of Inner EAR	Explain the pathophysiology and clinical features of Benign Paroxysmal Positional Vertigo (BPPV). Outline management, including repositioning maneuvers and patient counseling.	✓	✓	✓	✓	✓	1				
88				Describe the etiology and clinical presentation of vestibular neuritis. Differentiate vestibular neuritis from central causes of vertigo. Discuss management plan.	✓	✓	✓	✓	✓	1				
89				Describe the etiology and predisposing factors of Meniere's disease. Describe the characteristic signs and symptoms. Outline the medical and surgical management options. Discuss the long-term impact of Meniere's disease on hearing and quality of life.	✓	✓	✓	✓	✓	1				
90				Describe the etiology and risk factors of Presbycusis. Diagnose based on clinical presentation. Outline management plan including preventive measures.	✓	✓	✓	✓	✓	1				
91				Describe the etiology and risk factors of noise-induced hearing loss (NIHL). Identify the clinical presentation and audiometric findings of NIHL. Outline management plan including prevention.	✓	✓	✓	✓	✓	1				

91				Describe the etiology and risk factors of noise-induced hearing loss (NIHL). Identify the clinical presentation and audiometric findings of NIHL. Outline management plan including prevention.	✓	✓	✓	✓	✓	1				
92	ENT1-Ear-005	ENT/ Pharmacology	Ototoxic hearing loss	Enlist the common ototoxic drugs. Describe the mechanism of ototoxicity. Identify clinical presentation of ototoxic hearing loss. Outline strategies for prevention.	✓	✓	✓	✓	✓	1		covered in Ear 001		
93	ENT1-Ear-006	ENT	Glomus tumor	Identify clinical features of Glomus tumor. Enlist investigations. Discuss management options.	✓	✓	✓	✓	✓	1				
94			Temporal bone trauma	bone trauma. Enlist its possible complications. Outline relevant investigations and initial management plan.	✓	✓	✓	✓	✓	1				
95			Facial Nerve Palsy	facial nerve palsy. Outline management plan. Identify potential complications and prognostic factors of facial nerve palsy.	✓	✓	✓	✓	✓	1				
96			Surgical Procedures of Ear	Describe following surgical procedures used in treatment of ear diseases and mention their indications. i. Miringotomy	✓	✓	✓	✓	✓	1 1 1

Infrastructure Resources

Sr .	Infrastructure Resources	Description
1.	Lecture Hall	Each year has a dedicated lecture hall, totaling five lecture halls for the five professional years. These halls are equipped with modern audiovisual aids to support effective teaching and learning.
2.	Tutorial Room	The college's tutorial rooms, each with a capacity of 30, are specifically designed to support small group discussions and interactive sessions. These rooms facilitate personalized instruction, enabling more engaged and effective learning through direct interaction between students and instructors.
3.	Lab	The college is equipped with state-of-the-art laboratories for practical and clinical work. Each lab is designed to support various disciplines, to facilitate hands-on learning.

4.	Library on campus	A huge library occupies a full floor and has 260 seats including study carrels and group-discussion tables. Latest reference books of Basic and Clinical Sciences along with national & international journals are available in the library.
5.	Digital Library	The digital library offers access to a vast collection of e-books, online journals, research databases, and other digital resources. It supports remote access and provides tools for academic research and learning.
6.	Learning Management System (LMS)	The LMS is a comprehensive online platform that supports course management, content delivery, student assessment, and communication. It provides tools for tracking progress, managing assignments, and facilitates ongoing academic activities.
6.	Phantom Labs	Specialized Phantom Labs are available for advanced simulation and practice in dental procedures. These labs provide high-fidelity models and simulators that help students refine their clinical skills in a controlled environment.
7.	Mess & Cafeteria	The College has its own on-campus Mess which caters to 600 students. All food items including dairy, meat, and vegetables are sourced organically and bought in at the time of cooking, in order to ensure that students get freshly cooked meals at all times Students form the Mess committee which decides the mess menu in consultation with other students. The Mess offers fresh food to all residents three times a day. However, day scholars are also welcome to use the Mess facility at a reasonable cost. Two 50- inch LCD screens provide students an opportunity to get entertained during their mealtimes.
8.	Gymnasium & Sports	We recognize sports as a pivotal key to shape and maintain students' personality and good health. The College has indoor and outdoor sports facilities to help enhance the cognition and capacity to learn. There is a proper sports section for various games like basketball, football, volleyball, and cricket. The gym itself is fully equipped with modern machinery both for students and faculty.
9.	IT Lab	The IT Lab is equipped with modern computers and software available for students who need access for academic purposes.
10.	Auditorium	The college has a spacious auditorium equipped with advanced audio-visual facilities. It is used for large-scale lectures, guest presentations,

		and academic conferences, providing a venue for students to engage with experts and participate in important educational events.
11	Examination Halls	The college provides dedicated examination halls that are designed to accommodate a large number of students comfortably. These halls are equipped with necessary facilities to ensure a smooth and secure examination process, including proper seating arrangements, monitoring systems, and accessibility features.
